PROJECTS

Pet Café Website | WordPress (CMS) (*Youtube Demo*)

- Built and customized a multi-page WordPress site with sections for introduction, events, menu, job postings, blog, and contact information.
- Embedded a location map and enabled blog comments to support visitor interaction.

Games Collection | Node.js, Express, SQLite, React Native (*Git Repo* – *Youtube Demo*)

- Built a REST API with Node.js, Express, and SQLite supporting full CRUD operations.
- Developed a React Native app that consumes the API and keeps data in sync.

Games Collection API – Quality Control Project | Postman, GitHub Actions (*Git Repo*)

- Performed requirements analysis, test planning, and test case design, then executed positive, negative, and regression tests in Postman and reported defects.
- Automated API regression tests with GitHub Actions for continuous testing.

Explore Saigon | JavaScript, HTML, CSS, Google Maps APIs (*Git Repo* – *Website Demo*)

- Built an interactive map web app for exploring locations in Ho Chi Minh City.
- Integrated Google Maps APIs for markers, geolocation, geocoding, and route directions.

Movies Collection | ASP.NET Core, Razor Pages, C# (*Git Repo*)

- Developed a full-stack app for managing personal movie collections, with authentication, role-based authorization, and administrator user management.
- Isolated each user's data so every account sees only its own collection.

Master the Recipes | React Native, TheMealDB API (*Git Repo* – *Snack Expo Demo*)

- Built a React Native app for browsing and searching meals using the public TheMealDB API.
- Implemented state-driven UI with conditional rendering and efficient state management.
